

PwC Walkthrough and Controls Testing Summary

MEDTECH INDUSTRIES

Summary of Results

CorpLaw

Emergency Change Management

Required IT Director and CAB approvals were not evidenced for the emergency change tested.

Require documented post-implementation approvals and perform periodic management review of emergency changes.

Segregation of Duties

Segregation of duties conflict identified: one user had both developer and implementer access.

Remove conflicting access and perform periodic user access reviews to identify SoD conflicts.

Payroll System SDLC

Design Reviews

Design reviews were not performed prior to implementation.

Implement formal design reviews and documented approval before deployment.
